RECEIVED 
FOR RECORD
DATE November 30, 2017

Guests:

Rob Fish rfish@eanvt.org
Ian Hitchcock ihitchcock@vnrc.org

Community Energy Dashboard

Huntingtonec@vtenenergydashboard.org
We can download the data with a button.

There is a "submit a story" tab.

The uses include outreach possibilities, statistics, community building.

Button Up Vermont - a campaign where the committee tries to get two outreach events where they collect pledges to do work. When the pledged work is completed, the resident goes on the site and completes an online form.

We will have a powerpoint presentation.

Huntington Town Plan

If the town plan expires, the current energy plan expires in two years, which makes us lose access to preferred sites. There are seven categories for preferred sites, and we do not have to indicate them in the town plan.

Vote passed to have Emily Nosse-Leirer from CCRPC come down and help us write the plan. Ross will reach out to Emily via email, have her download the town plan, and contact us once she has had a chance to review it.
