<p>Legislative Round Table</p>	<p>Huntington’s State Legislators attended the meeting to share with the Selectboard upcoming priorities for their legislative committees and to hear from the Selectboard about legislative issues of concern. Topics included:</p> <ul style="list-style-type: none"> • Senator Ayer, Health & Welfare (Chair): Cost, quality and accessibility of health care remain a key focus, along with looking at the mental health system. Ayer also sits on the Senate Government Operations Committee. • Senator Bray, Natural Resources & Energy (Chair): Focus will be on oversight and due diligence for implementation of clean air, clean energy and clean water bills passed last year. Funding for municipal implementation of Act 64 (VT Clean Water Act) mandates is of particular concern. Bray also sits on the Senate Education Committee. • Rep. Stevens, General, Housing, & Military Affairs (Vice Chair): Affordable housing will be one priority of the committee, such as looking at how to help commercial builders build lower cost housing.

- **Rep. Woods, Human Services (Member):** The House Human Services Committee will be looking to take action on recommendations from the Blue Ribbon Child Care Report. They also plan to look at the status and quality of foster care in Vermont.
- Upcoming bills of particular interest to municipalities and general topics raised included:
 - H.7 – would extend the time frame for school district consolidation and associated dates by one year.
 - H.15 – would allow the State Board of Education to evaluate proposals for alternative governance structures on a case-by-case basis.
 - H.17 – would authorize municipal legislative bodies to establish speed limits as low as 15 mph (currently restricted to postings not less than 25 mph and not more than 50 mph).
 - H.42 – would allow voters to enable local legislative bodies to appoint town treasurers and clerks. The Selectboard and our Town Clerk do not support changing from electing to appointing the Town Clerk. The Selectboard and Town Treasurer are interested in further exploring the possibility of changing the Town Treasurer to an appointed position based on the unique skill set and training required for this position.
 - S.27 – would require that each town provide its own primary police coverage.
 - Cell Coverage – Coverage Co. status is uncertain. One micro-cell has been installed along Main Road.
 - Charter Changes – The Selectboard supports having the legislature look at more efficient ways to approve non-controversial charter changes, including streamlined approval for changes that the legislature has already reviewed and approved for another municipality.
 - Clean Water Act – Funding availability for Huntington to implement the legislature’s municipal road erosion mandates is a critical concern.
 - CUSI Funding – The CUSI funding structure remains a concern since it relies on property taxes.
 - Opiate Epidemic – The opiate epidemic is an ongoing concern in Huntington.
 - PILOT (Payment In Lieu Of Taxes) – The State’s PILOT formula changes will increase payments to Huntington from \$21,327 in FY16 to \$29,801 in FY21 (an overall \$8,474 increase).
 - Transportation – Availability of State funding for the Town Highway (paving) and Structures (bridges and culverts) programs remains of critical concern.
 - 3-Phase Power – Some residents have expressed interest in community solar arrays, however this requires 3-phase power, which is unavailable in Huntington. 3-Phase can bring with it other commercial uses, including large scale energy projects.
