

Map 3 Transportation & Recreation HUNTINGTON, VERMONT

1:45,600

Bridge Greater than 20'	Trail	Legend	Fluvial Erosion Hazard (FEH) Sensitivity Rating*
Park & Ride	VAST Trail		
Road Centerline		Ski or Bike Trail	Moderate
Town Highway Class 2 (11.16 miles)	20 ft Contour	100 ft Contour	High
Town Highway Class 3 (32.79 miles)	Recreation Field	State Park	Very High
Town Highway Class 4 (3.37 miles)	Wildlife Management Area	2011 Tax Parcel Boundary	Extreme
Private/Unknown (6.79 miles)			

***FEH NOTE:**
Stream sensitivity refers to the likelihood that a stream will respond to a disturbance or stressor, such as a change to the sediment or flow regime. Some streams are more likely to be in a measurable state of change due to their setting within the watershed and impacts from humans. Stream sensitivity ratings are used to determine appropriate river corridor meander belt widths. Stream sensitivity alone is not an indication of an active adjustment process and does not equate to a flood risk level; the appropriate river corridor plan should be consulted for further details on the physical condition of a specific reach of river.
