**Re: Huntington BRO 1445(35) TH 22, Bridge 30 over Brush Brook**

Dear Mr. Christiansen,

An Alternatives Presentation meeting for the above-referenced project was held on November 5, 2012. We received formal acceptance of our recommended alternative from Town officials on November 27, 2012. Conceptual plans based on the alternative recommended in the Scoping Report presented at that meeting are attached for your review and comment. Please review these plans at your earliest convenience and forward your comments to us.

At this time we suggest that you hold a public information meeting for this project if you feel that it is needed to inform the public about the proposed project. This meeting should be adequately warned to insure input from all interested parties, and individual notice should be given to each affected property owner. You are responsible for conducting this meeting, but we are available to provide any support you may need. The enclosed plans should be used for presentation of the project. Please inform us of the date of the meeting and whether you want someone from the Agency to attend. Also we request that this meeting be held at a handicap accessible location.

The current construction cost estimate is \$640,000, including construction engineering and contingencies. Our current preliminary engineering and right-of-way cost estimates total \$190,000, (of which we have spent \$25,199) for an overall project total cost estimate of \$830,000.

If you have any questions, comments or concerns please feel free to contact me by email at [chris.williams@state.vt.us](mailto:chris.williams@state.vt.us) or by mail at the address shown above.

Sincerely ,

Christopher P. Williams, P.E.  
Structures Senior Project Manager
