Members present:	Barbara Felitti (Chair), Aaron Worthley, Terry Boyle
Others present	Tom Perry, New Leaf Construction
Responses to RFP:	<ul style="list-style-type: none"> • Tom provided a detailed cost summary. Subcontractor costs are the main driving cost. • Tom will talk with subcontractors and refine estimates. • Tom will also provide options or revise costs to reflect the following: <ol style="list-style-type: none"> 1. No roof over the rear exit. 2. Without the kitchen sink hook-up. 3. Emergency lighting on the 2nd floor only. 4. No crash bars on the front doors or other hardware for the front door (this will be done after the door is refurbished). 5. Cost for wood stairs vs. trex for the rear exit. 6. Breakdown of items under "Interior Doors & Miscellaneous". We intended for this to cover the handrails in the stairwell and a fire rated door at the top of the stairs. 7. Cost for a concrete pump. We have concerns about heavy vehicles on the neighbor's lawn and so want to price this option vs. restoration costs. 8. No panic hardware on the interior doors on the first floor. • Tom will provide a revised estimate by July 30th.
